QR-CODE
MOEBIUS
MICRO-INVERTER MPPT

- Amber dashed = landscape on pitched roof / portrait on flat roof | Blue dashed = portrait on pitched roof / landscape on flat roof | One QR-code each window
- Row A = top | Row D = bottom | Roof position + panel orientation per MPPT | Reconstruct the roof layout | Leave QR-fields open for obstacles
- Column pairs (1-2, 3-4, 5-6...) = EAST-WEST panel pair setup on a flat roof | EMON will give you the type of roof selection in app
- Scan everything in one shot with the EMON Smart Scan app
- Change the layout later in app if needed | When more MPPT positions needed - use more sheets and connect them later in app
-
